Second, to claim that $\backslash(X\backslash)$ is part of the positive case for criminal law—that it is one of criminal law ’ s functions—is not to claim that $\backslash(X\backslash)$ should be part of the mission of every criminal justice official (Gardner 2007, 202). Reasons that help make a positive case for our actions are often reasons for which we should not act.

Everyday ethical decisions. Scientists also face ethical decisions in more common ways and everyday circumstances. For example, authorship on research papers can raise questions. Authors on papers are expected to have materially contributed to the work in some way and have a responsibility to be familiar with and provide oversight of the work.
