criticism of economics is well justi"ed. Yet, just as it is import-ant not to overstate what economics can do, it is critical not to understate it. Economics is far from a precise science—who would expect to predict with any accuracy global outcomes that depend on the individual actions of about 5 billion working-age

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy.It has two main areas of focus: asset pricing and ...
